

Environmental Sustainability & Carbon Audit 2024

1. Greenhouse Gas Inventory

Scope 1 direct operational emissions totaled 4,200 metric tons of CO2 equivalent.

Scope 2 market-based electricity emissions were 12,800 MT CO2e, a 18% reduction from 2023 baseline.

Net Zero Targets

2. 2035 Net Zero Commitment

100% of corporate electricity will be procured from certified renewable energy contracts by 2028.

Corporate fleet transition will convert all light-duty vehicles to battery electric by Q4 2026.
