

Enterprise Risk Management (ERM) Framework

1. Risk Identification & Matrix

Risks are categorized into Strategic, Operational, Financial, and Compliance domains.

The impact-likelihood scoring matrix evaluates threats on a 1 to 5 scale; scores of 16+ require board escalation.

Business Continuity Planning

2. Incident Response Drills

Unannounced disaster recovery tabletop exercises are conducted semi-annually.

Critical vendor supply disruption triggers pre-approved secondary source activation within 48 hours.
